

Data Science Tools and Ecosystem

In this notebook, Data Science tools and Ecosystem are summarized.

Objectives:

- List popular programming languages in DataScience.
- List commonly used libraries used in Data Science.
- Create a markdown cell with the heading 2.

Some of the names of popular programming languages used by Data Scientists are:

1. Python
2. R
3. SQL

Some of the commonly used libraries used by Data Scientists are:

1. Matplotlib
2. Numpy
3. Scik-learn
4. Pandas
5. TensorFlow
6. PyTorch

(Data Science Tools) | ----- || Keras || Matplotlib || Git || Apache Kafka || Apache Flink |

Below are a few examples of evaluating arithmetic expressions in Python

A simple arithmetic expression to multiply and add numbers.

```
(3*4)+5
```

```
17
```

This code will convert 200 minutes to hours by dividing by 60

```
200/60
```

```
3.3333333333333335
```
